FOREWORD BY CHAIRMAN

As we say goodbye to 2008, being one of the most challenging years ever for the rubber market, we welcome 2009 for a better year for the natural rubber (NR) industry. As the top three NR producers, (Thailand, Indonesia and Malaysia which formed the International Tripartite Rubber Council) had agreed to implement additional coordinated measures to give support to NR prices, let us do our part and together we plan and manage for a united front for the benefit and betterment of the rubber industry as a whole.

The MRE, which is a corporation under the Malaysian Rubber Board continues to play an active role in providing the necessary facilities and services to its 163 local and associate members. Besides facilitating the domestic NR trade and its members, the MRE participates actively in both the international and regional meetings such as the International Rubber Association (IRA) and the ASEAN Rubber Business Council (ARBC). The MRE currently holds the Chairman and Executive Secretary posts of the IRA and the permanent Secretariat of the ARBC.

This directory of MRE members is published yearly with the objective to serve as a reference and information regarding MRE members, profile on the MRE, application forms for membership and NR statistics are some of the additional components in the directory which would be useful to those who are directly or indirectly involved in the rubber industry.

Finally, I would like to thank all members for their continuing commitment and support on the activities of the MRE. We believe that this will keep us united and be prepared for further challenges in the year ahead.

Dato' Dr Kamarul Baharain bin Basir
Director General
Malaysian Rubber Board
cum Chairman MRE
